- **QR & Barcode Scanner**
- **10-Point PCAP Touch**
- **Integrated Receipt Printer**
- **Integrated speakers**

BUSINESS ALL-STARS ACCREDITED

3 Years **Warranty**

IRISH OWNED

QR Code Scanner & Thermal
features an LED light to improve reading ability and can be used to scan barcodes or QR codes in conjunction with special offers or to place orders.

Easy Maintenance & Cleaning
Tool-free maintenance is possible via the lockable front access door, allowing store staff to swap out and replace components without removing from the wall. Touch screen & barcode scanner are recessed into enclosure to wipe clean surface.

Built-in Windows PC
There is a built-in Intel i3 Windows PC, which can be upgraded if necessary. If your app runs on Android or Linux these operating systems are also supported by the hardware.

24/7 Commercial Use
As many quick service restaurants and supermarkets are open 24/7 any kiosk solution needs to be up to the task of being in continuous use.

Anti-theft Mounting Options

the kiosk can be securely mounted directly to the wall from inside the lockable door – providing an anti-theft flush fit. There is also an optional floor stand available on request when wall mounting is not possible.

Software Pckages available

You can use your own software solutions or we can offer various bespoke packages on request.

Durable Protective Glass

The glass front is thermally toughened but also has a special anti-scratch 6H hardness coating. There is also a special coating on the panel which reduces annoying reflections created by external light sources.

Automated Self Ordering

allowing staff to focus more on customer service, reducing queues and waiting times as well as improving and optimising the overall customer experience. This solution is designed for the fast food sector but can also be used in a range of retail spaces.
