OWNED

### Tablet-Like Styling

Their buttonless tempered glass face, rounded corners, steel enclosure with super slim profile and aluminium surround all add to their eye-catching tablet-like aesthetics.

### Optional Cloud Update

For a small charge you can also upgrade your screen to be networked, allowing you to remotely update your screen via LAN or WiFi. To find out more about our Digital Signage CMS

### 450cd/m<sup>2</sup> IPS Panels

Commercial grade IPS technology accurately displays image quality and colour depth with no fall-off in colour accuracy.

### Plug & Play

uploading images to the screen via a USB stick. Insert into the display, wait for your content to copy over and then remove. Your images and videos will now play in a continuous loop.

## Internal Locker

Run the screen from an external source, like a PC or media player, you can do so by using the HDMI input or VGA and 5mm audio jack inputs. There is also a space to fit a small PC or media player inside the Lockable Compartment

## Eco Power Timer

The eco-friendly power timer allows you to assign daily or weekly on and off times for your screen meaning that it is only in use when it needs to be; improving environmental efficiency.

## Integrated media player

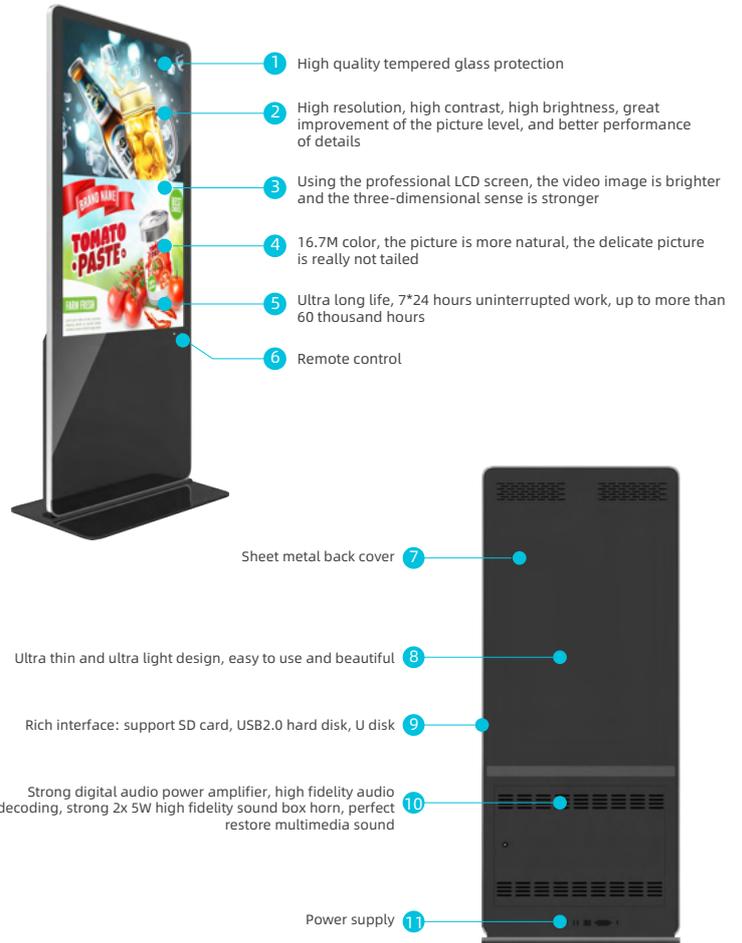

There is an integrated Android media player inside the screen allowing you to upgrade to a network version without needing any additional hardware.

## Scheduling Software

These displays can come with a scheduling software for displaying different content at different times of the day.
